About Me

- **4+ years of experience in UI/UX design:** Deep expertise in the field, backed by years of hands-on work.
- **Mastery of key design tools:** Proficient in Adobe XD, Sketch, and Figma.
- **Blend of aesthetics and functionality:** My projects harmonize visual appeal and usability.
- **Understanding user needs:** Effectively identify and address user requirements to create interfaces that enhance user experience.
- **Strategic thinking:** Integrate projects seamlessly with broader product visions, ensuring alignment with long-term goals.
- **Effective communication:** Excellent communication skills that facilitate successful collaboration across teams and stakeholders.
- **Adaptation to technological shifts:** Continuously learning and adapting to new technological trends.
- **Diverse skill set:** My portfolio showcases a wide range of abilities, from conceptualization to delivering user-oriented interfaces.

Expericence

- **UI/UX Designer**
Growkal | 2022 - 2024
Developed modern, user-centric designs for digital projects, aligning solutions with business goals. Researched industry trends to implement innovative strategies, ensuring impactful and engaging user experiences.
- **Senior UI/UX Designer**
Purple Wave | 2021 - 2022
Led the creation of website templates for a startup's website constructor platform. Designed optimized templates, mentored junior designers, and ensured seamless implementation in collaboration with developers.
- **Freelance UI/UX Designer**
Upwork | 2019 - 2021
Collaborated with international clients on diverse projects, delivering intuitive web and mobile designs. Conducted user research and developed wireframes, prototypes, and high-fidelity designs.
- **UI/UX Designer**
Self-Employed | 2019
Completed private training in UI/UX design, mastering tools like Figma and Sketch. Designed websites and mobile app interfaces, focusing on usability and aesthetic appeal.
- **Freelance Retoucher**
Upwork | 2015 - 2019
Specialized in fashion portraits and product photography editing. Delivered polished, professional images tailored to client needs, building a strong international client base and mastering image editing tools.
- **Freelance Photographer**
Self-Employed | 2013 - 2015
Graduated from photography school and image processing courses. Worked independently to deliver high-quality photography projects, managing client relationships and enhancing images using advanced techniques.
- **Mechanical Design Engineer**
Aviation Factory "Motor Sich" | 2011 - 2015
Designed 3D models for helicopter diagnostics during testing, collaborating with engineers to ensure compliance with aviation standards. Specialized in creating precise CAD designs, enhancing functionality and safety.
